

Why Membership in the Washington Health Alliance?

WORKING TOGETHER TO CREATE SYSTEM CHANGE

By itself, no single employer, physician group, hospital, community group, health plan or individual can create the impact needed to improve the quality and affordability of health care in Washington and decrease wasteful overuse and misuse of health care resources. Transforming health care takes the participation of everyone.

The Washington Health Alliance is a place where stakeholders work jointly to transform the health care system for the better. We bring together organizations that share our commitment to drive change in our health care system. The Alliance increases its impact by helping to align the work underway in Washington by our stakeholders. The Alliance believes that by working together we can create the system change that each would never be able to achieve individually. Our reports offer unbiased information and important insights that shape the way care is delivered, used and paid for in our state.

THE VALUE OF MEMBERSHIP

The Alliance offers a singular opportunity to interact with all the participants in our health care system, including purchasers, providers, health plans and consumers. Our participating organizations have a front row seat in the effort to transform health care in Washington, helping to shape ongoing efforts to change behaviors, improve quality and efficiency and promote good health. Here are the principles the Alliance is committed to in its partnership with its members.

THROUGH
COLLABORATION,
WE CAN
TRANSFORM
THE HEALTH
CARE SYSTEM.

Ready to get started? For more information about membership and its benefits, please visit www.wahealthalliance.org/join-us/.

CREATING A FORUM FOR CRITICAL CONVERSATION.

- By bringing all the participants in health care together, the Alliance offers an objective forum for members to share ideas, learn from each other and adapt during a time of rapid change.
- Serving as a trusted source of information on health care quality and value to support informed decision-making and help increase health literacy.

ACTING AS A CATALYST AND REPORTER OF PROGRESS TOWARD A BETTER HEALTH CARE SYSTEM.

- Measuring our health care system's progress toward achieving better care, better health and lower cost.
- Shining a light on promising practices to increase adoption in the marketplace.
- Exposing variation in the quality and price of health care.

THINKING GLOBALLY, ACTING LOCALLY.

- Bringing national and regional thought leaders to the conversation to improve health care in Washington.
- Working to make Washington state a leader in health care improvement nationally.

The Alliance offers you the opportunity to connect with all the participants in health care in order to work toward a shared goal: making Washington state a leader in high-quality, high-value health care. Join with leading national and regional organizations to help improve our health care system.
